## SUMMARY

Full Stack Developer and Computer Science undergraduate with hands-on experience building and shipping production-grade Full Stack web applications end to end. Strong command of front end languages — JavaScript, TypeScript, HTML, and CSS — handling responsive web design and building front end interfaces with React, Angular JS, and Next.js, and designing secure Back End REST APIs with Node.js/Express, FastAPI, and PHP. Comfortable across the Full Stack with relational (MySQL, PostgreSQL) and NoSQL (MongoDB) databases, JWT authentication, and role-based access control. Known for strong problem solving skills, excellent verbal communication skills, and organizational skills, and delivering Full Stack features on schedule in agile teams.

## EDUCATION

### SRM University AP

Bachelor of Technology (B.Tech), Computer Science and Engineering | Amaravati

August 2023 – May 2027

CGPA: 7.54 / 10

- Relevant Coursework: Data Structures & Algorithms, Database Systems, Machine Learning, Statistics & Probability.

### Malaysia Student Mobility Program

Semester Exchange, INTI International University, Malaysia

August 2025 – December 2025

CGPA: 8.0 / 10

## EXPERIENCE

### Edubot Technologies

Full Stack Developer Intern

June 2025 – July 2025

Remote

- Developed and shipped 3+ production features on an EdTech platform using the MERN stack (MongoDB, Express.js, React, Node.js), improving content-delivery workflows across the app.
- Designed 10+ RESTful back-end API endpoints for dynamic data flow and implemented JWT-secured routes with server-side input validation, reducing invalid requests reaching the database.
- Collaborated cross-functionally with product and design teams in 1–2 week agile sprints, delivering 100% of assigned features on schedule.

## PROJECTS

**Progresso — Team Task Management Platform** | React, JavaScript, Python, FastAPI, SQLAlchemy, JWT, MySQL/PostgreSQL

- Architected a full-stack Kanban-style platform with a React front-end and FastAPI back-end, featuring drag-and-drop boards, task labels, comments, priorities, and due dates across unlimited team workspaces.
- Implemented JWT authentication with bcrypt hashing, password-strength validation, and rate limiting, plus role-based access control across 2 roles (admin/member) with invite-code onboarding.
- Built an admin analytics module aggregating per-board and per-member completion stats with CSV export for team leads.

**Emla — Real-Time ASL Recognition** | TypeScript, JavaScript, Python, MediaPipe, Transformers, Gemini API

- Built a real-time computer-vision pipeline processing live video frames through 5 stages — capture, MediaPipe hand-landmark detection, feature extraction, Transformer classification, and LLM response.
- Integrated the Google Gemini API to turn recognized signs into natural-language responses on live webcam input, with a TypeScript front-end.

**Studium AI — Adaptive Learning Agent** | React, JavaScript, Python, FastAPI, MongoDB, Groq (LLaMA-3.3-70B)

- Designed an autonomous agentic loop: syllabus PDF upload → topic extraction → deadline-aware study plan → per-topic quizzes → weak-topic detection (score < 70%) → automatic re-planning.
- Leveraged Groq LLaMA-3.3-70B for sub-second inference, generating structured schedules and 2/5/10-mark exam questions with model answers, served through a React front-end over a FastAPI back-end.

## CERTIFICATIONS

- Oracle Certified Professional: Java SE 17 Developer
- MongoDB Associate Developer
- Cisco CCNA: Introduction to Networks (Cisco Networking Academy)

## SKILLS

**Languages:** JavaScript, TypeScript, Python, Java, PHP, Ruby, C, C++, SQL, HTML, CSS, Go

**Front End:** React, Angular JS, Next.js, Tailwind CSS, HTML/CSS, Web Design, Responsive Design

**Back End:** Node.js, Express.js, FastAPI, PHP, Ruby, REST API Design, JWT Authentication, RBAC

**Databases:** MySQL, PostgreSQL, MongoDB, SQLite, SQLAlchemy

**Tools & Practices:** Git, GitHub, VS Code, Power BI, Agile, Full-Stack Development, System Design

**Soft Skills:** Problem Solving Skills, Verbal Communication Skills, Organizational Skills, Cross-Functional Collaboration
